DETAILED ACTION

The following action is in response to the amendment filed for application 10/784,555 on January 13, 2006.

Allowable Subject Matter

Claims 1-7, and 9 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the multi-speed transmission as claimed, and particularly including the second planetary gear set being a compound gear set, the first and third planetary gear sets being simple planetary gear sets, wherein pinion gears of said simple and compound planetary gear sets are separate from each other such that no pinion is shared by said simple and compound planetary gear sets, and including the remaining structures of claims 1 and 7, respectively. The present invention also particularly includes a ring gear of the second planetary gear set being integrally connected with the ring gear of the first planetary gear set by a sleeve; wherein a spacer is positioned between said ring gear of the second planetary gear set and said ring gear of the first planetary gear set, and including the remaining structure of claim 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roger L. Pang whose telephone number is 571-272-7096. The examiner can normally be reached on 5:30am to 4:00pm.
